#### Schedule Format

The Divisional Championship is finalized by the Divisional Board. Proposals from the Divisional League regulations were considered.

The championship format with shield matches has the goal of providing a minimum of two matches for each team traveling in. This goal is important for teams not traveling to the USGAA finals and the format should afford clubs who are traveling to USGAA finals additional playing time for non-starters.

Where an odd number of teams comprised the bracket, a random draw was held to determine the play-in game. The first two teams drawn play the play-in game.

At the determination of the Divisional Board, the schedule may be re-arranged Sunday if there are conflicts. Each team is encouraged to stand on their own and not rely on dual players.
